Money Money

1. Smell Money

I'm sure you've smelled money at some point in your life. It has a distinctive odor that you don't find elsewhere. But what does the smell of money have to do with manifesting wealth today?

Simple – smelling money puts you in vibrational alignment with money. It makes you at one with money and when you're at one with it, you manifest money fast.

When you smell money, you don't just smell it and do nothing, or think about how hokey it seems.

With the Law of Attraction, as soon as you ask for something it is yours. This means that the money you want is already yours. So when you smell the money, don't smell it to get money.

Smell money with the realization that you already have a lot of money. You aren't smelling it to manifest money today. You're smelling it because you already have manifested tremendous wealth.

2. Love Money

Everything responds to your feelings, even money. So often people feel frustrated, disappointed, sad and fearful about money. But money is about bliss, love and joy.

This simple exercise changes your feelings about money. It quickly shifts you from pushing money away to allowing it into your life. Instead of focusing on how much money you need, you change your vibration to one of allowing yourself to manifest money today.

All you have to do is make a list of why you love money.

"I love money because it helps me pay my bills."

"I love money because it helps me travel the world."

"I love money because it allows me to do so much good in the world."

"I love money because it smells so good."

"I love money because it's gorgeous."

3. Think from Manifesting Money

You need to see yourself as having manifested money today. Your entire vision needs to be one of it having already happened. Forget about what you see going on in the world around you.

Feel that your life is expanding without being attached to the outcome.

Don't think about if you will manifest money today. Think from your desire.

Be confident and clear. Remain at a high vibration as the world remakes itself around you.

Debt moves out, wealth moves in.

Collectors stop calling, bills paid in full shows up.

Struggling to get by leaves, excess money arrives.

You can manifest money today.

When manifesting money you must remember that

the Law of Attraction states that whatever you give consistent thought to, you will create.

So, manifesting money is really not much different than trying to attract anything else in your life that you desire.

But, because money is such a huge factor in our lives, people tend to stress and worry more especially when they feel like they do not have enough of it.

But what most people fail to realize is, that by stressing and worrying about the absence of money causes your financial abundance to be held away from you longer.

You must know that you are the creator of your entire life experiences; including what you have in your bank account.

Life is reflected back to you by the thoughts that you consistently think.

So, if you are the type to always complain about how poor you are, or if you constantly think negatively about others who are thriving financially.

You aren't doing nothing but pushing your financial abundance further and further away from you.

In order to know where you are right now when it comes to money.

Ask yourself, how do you feel about money?

When you think about money, do you feel that you are in a good place?

Are you grateful for the money that you have in your bank account right now?

Are you stress free or not worried about money because you know that there is more to come, whenever you need it?

If you have good thoughts when it comes to money then you are definitely on the right track to learning how to manifest money and becoming financially abundant.

At the period of allaudin khilji the mann (weight) was equal to 12 seers kachha.

In British period, Col. Todd writes a Mann of 4 Seers.

1 Seer = 80 Tolas / 16 Chattaank.

1 Tola = 12 Maasha / 96 Ratti.

Bhagat Kabeer writes, "Mann Das Naaz, Taka Chaar Gaanhi."

In Sharangdhar the weights are as below:-

 2 1/2 paav = 1 paav.
 4 paav = 1 seer.
 5 seer = 1 panseri.
 2 panseri = 1 dharhi.
 2 dharhi = 1 adhamann.
 2 adhamann = 1 mann.
 5 mann = 1 bhaar.

In 19th century a poet writes, "EK MANN AATH KHAND, KHAND KHAND PAANCH TOOK.

TOOK TOOK CHAAR PHAAR, PHAAR DOE PHAAR HAI.

ATAO TE PAIESE OH, HPAISA EK PAANCH TAAK.
